Agricultural distress, 83; labourers, 92; population of China, 163.
Almanach de la République Française, pour 1850, 543.
Alpine Wanderings, 545.
America, ravages of cholera in, 333.
Analysis of parliamentary business in the Session of 1849, 481.
Anatomy of the External Forms of Man, 286.
Andaman Islands, 157.
Animal food, 10.
Antiquity of the African slave-trade, 505.
Anti-slavery efforts, 506.
Apology for teachers, 369.
Apostolical Acts and Epistles, 611.
Asia Minor, decay of its ancient population, 172.
Asterolepis, 582.
A Week on the Concord and Merrimack Rivers, 599.
A Word or Two on Port Wine, 74.

B

Bankrupt Law Consolidation Act, 419, 421.
Bankruptcy Commissioners, 433.
Battle of modern religious opinion, 381.
Benefits of cheap transit, 83.
Berne, decay of its ancient families, 177.
Bill for regulating the traffic in slaves, 507.
Bills passed in the Session of 1849, 486.
Biting mania in Germany, 314.
Bivouac on the banks of a river, 601.
Black death of the 14th century, 302.
Black draught, 76.
Black swans, 5.
Blackwall railway, 445.
Board of Health on quarantine, 325.
Bohn's Libraries, 605.
Book of Ornamental Glazing Quarries, 272.
Bosworth's Anglo-Saxon Dictionary, 610.
Bow extension of the Blackwall railway, 444.
Bray's Education of the Feelings, 615.
Brazilian slave-trade, 530.
Bridges, different descriptions of, 437.
Brightening prospects of the nation, 96.
Brighton railway, 455.
Britannia and Conway bridges, 435.
Brothers of the Cross, 305.
Buckingham (J. S.) on National Evils and their Remedies, 293; Irish distress, 294; spade husbandry and dibbling, *ib.*; model town, 295.
Bulwer's Caxtons, 408; gipsies, 417.
Burdach on Fate, 115.

C

Cambridge locomotive, 458.
Camphor in cholera, 340, 343.
Captain Sword and Captain Pen, 593.

81966

Captain Warren's triangular frame bridge, 447.
Capture of slave-vessels, 520.
Cardiac, or heart-disease, of ancient authors, 323.
Carlyle on the slave trade, 529.
Carlyle's influence on the religious tone of the present age, 397.
Carus and his philosophy, 111; his Psyche, 118, 221.
Causes of commercial crises, 87; of destitution, 92.
Certificates in bankruptcy, 424.
Chambers's Instructive and Entertaining Library, 299.
Chaotic state of religious opinion in England, 289.
Charter-house Square, 302.
Chemistry in relation to food, 13.
China and its population, 161.
China and the Chinese, 601.
Cholera in Paris in 1832, 327; its attacks more frequent at night, 330; at Ramsgate, 334; attributed to fungi, 336; premonitory symptoms, 343.
Cholera fungi, 336.
Cholera morbus of the 16th century, 316.
Chronicles and Characters of the Stock Exchange, 594.
Coal, its influence on human progress, 9.
Cold ablutions in epidemics, 349.
Col. Thompson on the slave trade, 527.
Colouring matter of port wine, 78.
Commerce and manufactures, 86.
Commercial crises, 87.
Composite carriages on railways, 462.
Composition of human food, 12; of port wine, 76.
Compositions and assignments in bankruptcy, 423.
Condition of domestic servants, 21.
Conditions of well-being, 95.
Confessions of Con Cregan, 291.
Consternation caused by the black death, 305.
Construction of human habitations, 17; of highways and railways identical in principle, 449.
Contracts and contractors, 474.
Conventionalities of fashionable Life, 376.
Corporation of Newcastle-upon-Tyne, 179; of Durham and Richmond, *ib.*; of London, *ib.*
Correspondence Philosophique et Religieuse, 379, 384, 387, 400.
Cost of railway transit, 32; of the bankruptcy courts, 433; of railway carriages, 475.
County Voters' Manual, 300.
Course of the black death in the 14th century, 303; of the cholera, 326.
Cure of epidemics, 341.

D

Dana's Manual of Mineralogy, 611.
Decay of ancient populations, 168, 172; of population in England in the reign of Henry VII., 175; in Switzerland, 176; of ancient families, 177; of Venetian nobility, 179; of French nobility, 179.
Decrease of population in China, 167; of the North American Indians, 170.
Definition of races, 6.
Depopulation of Asia Minor and Egypt, 172; of Greece, 173.
Destruction of life occasioned by war, 152; of Sennacherib's host, 318.
Development of the Law of Storms, 590.
Digestion, theory of, 347.
Discovery of gold, 37.
Disease and wretchedness traceable to habit and ignorance, 150.
Dr. Kelsall on cholera, 338, 341.
Domestic servants, 21.
Doubleday on early fecundity, 188.
Drainage, importance of, 350.
Duties of civilized man, 28.
Dwellings, construction of, 16; for the working classes, 20.

E

Ebenezer Elliott, Obituary of, 495.
Economical traction on railways, 448.
Economy of railway transit, 456.
Education as it is, and as it ought to be, 619.
Education of commercial men, 88; of children, 364.
Educational Works, 615.
Effects of unusual mortality on population, 150; of epidemics on population, 182; of high feeding, 191; of fear in cholera, 349; of the Emancipation Act of 1829, 396.
Egypt, decay of its ancient population, 172.
Elasticity and gravity the two great principles of Nature, 37.
Emancipation of Slaves in the British colonies, 538.
Embroiderers of Appenzell, 547.
Emerson on woman's power, 359.
Emigration, 411.
Emperor of Russia, 216.
Employments adapted for females, 370.
Enfield locomotive, 457.
England's influence upon other nations, 8.

English peerage of recent origin, 177; monopoly of the Portuguese trade with Africa, 505.
Englishmen in Switzerland, 550.
Ennemoser on animal life, 119, 129.
Epidemics, 301; at the close of the 15th century, 314; periodical visitations of, 324; not propagated by contagion, *ib.*
Ernesto di Ripalta, 285.
Estampado, 387.
Evidence of design manifested in the varying fecundity of animals, 145.
Evidence on the Slave Trade, 516, 523.
Evils of family intermarriages, 412; of surplus weight in railway transit, 449.
Excitement, a Tale of the Times, 282.
Extinction of slavery, 202.

F

Fairbairn's Conway and Britannia Tubular Bridges, 299, 441.
Fairfield locomotive, 467.
Farming and its prospects, 83.
Farms and railways, 470.
Feuerbach on truth, 114.
Finances of Austria, 217.
Financial career of France, 206.
Financial reform, 487.
Fires in epidemics, 331.
First Nursery Reading Book, 619.
Flagellants of the 14th century, 305; in Strasburg, 307.
Food of man, 9.
Foreign Literature, 227, 543.
Foreign policy of the Session of 1849, 490.
Form and Sound, 279.
Forms of bridges, 438.
Fortune's China, 163, 165.
Foxton's Primitive Christianity, 288.
Frankfort parliament, 561.
Frauds connected with bankruptcies, 422, 426.
Free trade and protection, 83.
Friends in Council, vol. ii., 610.
Friends in Council on Slavery, 536.
Frobel on Education, 617.
Furniture, 19.
Fungoid origin of cholera, 336.

G

George Sand's Petite Fadette, 566.
German Philosophers on the Soul, 111.
Geysers of Iceland, 268.
Gilbart's Treatise on Banking, 297.
Gilfillan's Gallery of Literary Portraits, 609.
Girder bridges, 438; on the Stepney extension railway, 446.
Government superintendance of railways, 472.
Graduated Reading, 619.
Greece, decay of its ancient population, 173.
Guerazzi, Autobiography of, 269.

H

Hamilton's Fairy Tales and Romances, 602.
Harmonies of sound, form, and colour, 279.
Harry M'Cabe's will, 291.
Health, importance of, to both sexes, 375.
Hecker's Epidemics of the Middle Ages, 301; black death, 302, 304.
Heinroth's Orthobiotics, 115.
Henfrey's Rudiments of Botany, 277.
Hermits in Switzerland, 549.
High level bridge, 443.
History and Description of the Styles of Architecture, 595.
Homœopathy, 347.
Hopkins's Exercises, 620.
Human Progress, 1.
Hume on the decay of ancient populations, 174.
Hungary, 253.
Hunt's Panthea, 607.
Hursthouse's New Plymouth, 275.
Hybrids, 193.
Hydrophobia, 313.

I

Importance of early training, 362.
Imports from British colonies, 540.
Improved state of society, 82.
Ignorance and extravagance the true causes of mercantile distress, 90.
Incomes derived from the law as a profession, 419.
Increase of population in the United States, 143, 152; of the slave trade, 514.
Infanticide in China, 162.
Influence of climate on human progress, 6; on races, 7; of coal and food, *ib.*; of railway transit, 30; of the discovery of gold, 37.
Inhabitants of Terra del Fuego, 155; of the Andaman Isles, 157; of New South Wales, 159.
Inherent power of multiplication in organized beings, 142.
Insolvency and bankruptcy laws, 420.
Intellectual phases of society during the French Revolutions, 393.
Introduction to the Study of the Social Sciences, 618.

J

Jasmin and his curl-papers, 39; Lamartine's opinion of his poetry, 40; his popularity in Gascony, *ib.*; his Souvenirs, 42; his early years, *ib.*; his grandfather, 44; is sent to school, 45; his expulsion and its consequences, 46; is apprenticed to a barber, 47; begins to write verses, *ib.*; his first visit to the theatre, *ib.*; opens his hair-dressing saloon, and marries, 48; his reception in Paris, 49; effect produced by his Abuglo, 50; specimens of his poetry, 52; the Blind Girl, 54; Françonette, 59; the Idiot Girl, 66; minor poems, 71.
Jeropiga, 80.
Juvenile Depravity, 588.

K

Kant and his philosophy, 113.
Knox's Lectures on the Races of Men, 1.
Kohl's Alpen Reisen, 545.
Kossuth, 262; his early years, 263; his present appearance, 264.

L

Lake Como, 553; Garda, 557.
Lamartine, 283; his opinion of Jasmin's poetry, 40.
Landed gentry of Lombardy, 557.
Last days of Ebenezer Elliot, 495.
Law of labour independent of the law of population, 144.
Law of Bankruptcy, 419; of Debtor and Creditor, 483.
Law reform, 486.
Laws of Population, 184.
Lemon groves of Italy, 559.
Lessons in Social Science, 100.
Letters from Frankfort and Paris, 541; of William Humboldt, 585.
Light, importance of, 350.
Light engines and their advantages, 435, 477; trains on the Cork and Bandon line, 477.
Limitation of human fecundity, 152.
Little Fadette, 566.
Loans and Standing Armaments, 205.
Loans, the bulwarks of despotism, 223.
Lodge's Portraits, 605.
London to New York in a week, 443.
Long carriages on railways, 466.
Los Papillotos de Jasmin, 39.
Loss and Gain, 379, 383.
Louis Napoleon, 284.
Low amount of electricity in the atmosphere during the cholera, 337.
Lower Theiss, 234.
Lyons, its freedom from cholera, 340.

M

Malignant cholera, 321; not a new disease, 322; in St. Petersburgh, 323.
Malthus and his doctrines, 133; his Essay on Population, 138.
Man from the Cradle to the Grave, 287.
Marriage, 372; of near relations, 197.
Marriage customs among the aborigines of Australia, 159.
Mechanism and human clothing, 13.
Melancholy of the Italians, 559.
Mental progress of man, 36.
Mercantile men, 88.
Metropolitan Commissioners of Sewers, 491.
Migratory habits of the Swiss, 181.
Mill (J. S.) on the law of population, 136.
Miller's Foot-prints of the Creator, 582.
Milton, 609.
Miscellaneous Notices, 272, 582.
Misconception of the principles of joint-stock associations, 89.
Mr. Chadwick on poverty and privation, 149.
Mr. Cobden on Russian loans, 211.
Miss Bremer's Summer Journey, 227.
Modern Painters, 23.
Mortality from cholera in Paris and England, 331; in Siam, 332; greatest in low-lying districts, 333; at Leeds, *ib.*
Motionless condition of the atmosphere during the summer of 1849, 336.
Music in St. Vitus's-dance, 309; in tarantism, 311.

N

Napoleon and Madame Campan, 363.
National Evils and Practical Remedies, 293.
Native of Appenzell, 548.
Nature's providence for animals in the several periods of their existence, 184.
Navigation Act, 482.
Navvies and their tools, 469.
Needlewomen, 15.
Neglect of Industrial Science, 81.
Nemesis of Faith, 379, 388, 397.
Newcastle-on-Tyne, 443; progress of railways at, 469.
New Plymouth, 275.
New Poland, 300.
New South Wales, and its inhabitants, 158.
Night attacks of cholera, 330.
Nineveh, 172.
North American Indians, 169.
Nubians, the probable descendants of the ancient Egyptians, 173.

Number of slaves on board vessels engaged in the slave trade, 526.

O

Obituary, 495.
Objections to human progress answered, 22.
Objects of inquiry relative to laws of population, 199.
Order of flagellants, 306.
Origin of races, 3.
Overcrowding of human habitations, 350.
Ozone hypothesis of cholera, 337.

P

Panthea, the Spirit of Nature, 607.
Parental neglect a cause of destitution, 93.
Paris, cholera in, during 1832, 327.
Past, present, and future, 382.
Père Enfantin, 384.
Periods of existence in animal life, 184.
Persecution of the Jews on the appearance of the black death of the 14th century, 307.
Pestilence of 1528, its political effects, 317.
Physico-Geographical Sketch of Iceland, 264.
Pilgrimages to St. Mary of Walsingham and St. Thomas of Canterbury, 274.
Pisistratus Caxton, 412.
Pitcairn's Islanders, 194.
Plagues in England, 320.
Plutarch on the depopulation of Greece, 174.
Political economy as a branch of education, 98.
Population of Norway, 181.
Population and capital, 135.
Port Wine, 74; change of taste for, 75; mode of manufacture, 76.
Porter, 78.
Porter's Principles of Textual Criticism, 613.
Portuguese expeditions to the coast of Africa, 505.
Position of the slave-owner indefensible, 500.
Poverty no check to the increase of population, 100.
Preparation of human clothing, 13.
Prices of slaves, 514.
Principle of life in animals and vegetables, 184.
Progress of the human race, 3.
Proportion of marriages and births to deaths, 186.
Prosecutions for blasphemy, 395.
Protection of females, 485.
Psyche, 111.
Pupil's Manual, 620.

Q

Quarantine mischievous, 325.
Quarterly Review on cattle-breeding, 595.
Question of races, 193.

R

Rabelais' Works, 602.
Races, origin of, 3; definite, 6.
Rails on the Eastern Counties' line, 467; on South-eastern, 468; on highways and farms, 469.
Railway Progress, 435.
Railway traction, 450, 465.
Railways, their influence on civilization, 30; their rise and progress, 448; in relation to agriculture, 470.
Ramsgate, the cholera at, 334.
Ratios of population and capital, 135.
Redhead's French Revolution, 283.
Redundant populations, 155; of China, 161.
Refusal of certificate in bankruptcy cases, 424.
Religious Faith and Modern Scepticism, 379.
Remuneration to railway directors, 473.
Report on Idiocy in Massachusetts, 298.
Reports on the African Slave Trades, 202; of Committee on the Slave Trade, 510, 572.
Requisites for emigrants to New Zealand, 277.
Reputation in man and woman, 373.
